		Choose one of the robotics research areas or research labs at the University of Texas and write a paragraph explaining your choice.		3 points
		Watch the two videos on the LinkerHand L30 and be prepared to discuss in class.		2 points
		Assemble the miniArm Robotic Arm and practice controlling the five different servos with the button dials. Bring to class with the batteries fully charged (carry the robotic arm in a separate box or bag so that it is not damaged).		

Science Fair

Create a "Hypothesis" display with your hypothesis of how the buoyancy of water will change as the salinity level of the water is increased, and attach it to the bottom-left of your tri-fold poster board.

5 points

Start making a list of materials that you will use to test your hypothesis, and be prepared to discuss in class. We will finalize the list together in class.

5 points

Mathematics

Watch the video on the History of Algebra, and be prepared to discuss in class one of the mathematicians or scientists mentioned in the video.
